

# Norfolk Residence

Location:  
Norfolk, VA

Cost:  
\$62,000.00

Projected Completion  
Date:  
2013

The gorgeous deck and fireplace are being constructed to enhance the homeowner's backyard experience. Ann Stoked Landscape Architects beautifully designed the landscape with comfort in mind while enjoying the beautiful gardens and view of the Lafayette River. Premium materials were used such as IPE decking, stainless steel nails and screws, natural stone. Finally limestone was used around the fireplace and to create the mantle and crown. The two structures are solid and are designed to withstand the high winds encountered on the river.
